

Christine Joy Navarro

DEVOPS ENGINEER

Manila, Philippines | +63 919 222 5678 | christine.navarro@email.com

Objective

To obtain a challenging DevOps engineer position in a dynamic and innovative organization where I can use my technical and analytical skills.

Experience

DevOps Engineer | AgileWorks PH

2021 – Present

- Reduced deployment time by 45% by automating pipelines using Jenkins and GitLab CI.
- Improved monitoring efficiency by implementing Prometheus and Grafana dashboards.
- Increased team productivity by creating reusable Docker images across projects.

Junior DevOps Specialist | TechNova Systems

2018 – 2021

- Decreased server downtime by 20% through proactive system monitoring.
- Streamlined release process by introducing containerized builds, cutting errors by 30%.
- Supported multiple teams in adopting infrastructure automation with Ansible.

Education

Polytechnic University of the Philippines, B.S. in Computer Engineering

2018

- Dean's Lister (2016–2018)

Certification

Docker Certified Associate

Kubernetes Administrator (CKA)

Jenkins Certified Engineer

Skills & abilities

CI/CD, Docker, Kubernetes, Jenkins, GitLab CI, Python, Bash, Ansible, Monitoring (Prometheus, Grafana)
