Andre Carlo Bautista

Cloud engineer

Taguig, Philippines | +63 917 666 4433 | andre.bautista@email.com

Objective

To obtain a challenging cloud engineer position in a dynamic and innovative organization where I can use my technical and analytical skills.

Experience

Cloud Engineer | CloudSphere PH   **2020 – Present**

- Reduced infrastructure costs by 25% by implementing auto-scaling policies in AWS.
- Deployed Kubernetes clusters for microservices, improving system reliability by 20%.
- Improved release cycles by 35% by setting up CI/CD pipelines in Jenkins.

Systems Engineer | NetCore Technologies   **2017 – 2020**

- Migrated 50+ on-prem applications to Azure, reducing downtime by 30%.
- Enhanced system security by implementing IAM policies and auditing.
- Cut deployment errors by 40% through Infrastructure-as-Code (Terraform).

Education

Mapúa University, B.S. in Electronics and Communications Engineering   **2017**

- Thesis: *Scalable IoT System Using Cloud Infrastructure*

Certifications

JAWS Certified Solutions Architect – Professional

Microsoft Certified: Azure Administrator Associate

Google Cloud Professional Cloud Architect

Skills & abilities

AWS, Azure, GCP, Terraform, Kubernetes, Docker, Jenkins, Linux, CI/CD, Networking
